

# Release Notes

## Firmware Update—Embedded Controller (EC) 1.05 For Mesa® 4 Rugged Tablets Running the Windows® 11 Operating System

These notes include important information for our Mesa 4 customers regarding the most recent release of the Mesa 4 Windows 11 OS.

Documentation and software updates are located on the Juniper Systems website: <https://junipersys.com/support/mesa-4>.

### Resolved Issues in EC 1.05

- Fixed scenarios that caused the cellular modem to be unrecognized by the OS.
- Fixed the error message when Updater is ran on the wrong product.

### Important Update Instructions

When you update the firmware, follow these instructions:

1. Plug external power into the Mesa 4.
2. Save and close any files or programs.
3. Back up critical data.
4. Run the Embedded Controller update .exe.
5. Follow the on-screen prompts.
6. When the process is complete, launch Device Settings to check the Embedded Controller version.
