# Release Notes
Product Update 2.3.0
For Geode Connect for Android

These notes include important information for Geode Connect for Android users regarding the most recent release of the app.

Documentation and software updates are located on the Juniper Systems website:

https://www.junipersys.com/support

New Features

- Compatibility for the new Geode GNS3 receiver
- Request quotes for receiver activations and subscriptions within the app
- Save the receiver settings to the current connected port and/or the other ports of the Geode at once
- Support for Atlas subscriptions
- Reset the Geode via software or hardware on GNS3 devices
- Move the home screen tiles around to display as desired
- Update other ports message settings as well as the current connected port

Updates

- Made the application more consistent with the PC and iOS versions
- Manage saved points more easily
- Saved points data moved to a new Android save location
- Removed the Glofix configuration on/off option because the feature is always on
- NTRIP setting persists correctly after a configuration change
