

On-Site Training Program

Esri®'s ArcPad® is a field data collection and mapping software for professionals utilizing GPS and GIS capabilities. The data collected can be integrated back with a geodatabase or with enterprise solutions such as ArcGIS for Server. Because of the professional nature of ArcPad and the somewhat steep learning curve, customers appreciate an initial training and installation services to help get started using the software properly. We offer these services during an on-site visit. Make the most of your ArcPad data collection and sign up for an on-site visit today!

Payment and Options

Juniper Systems offers several flat-fee payment options based on the location and duration of the on-site visit.

Location	One-Day Service Price	Two-Day Service Price
Customer's Location	\$1,500	\$2,500
Juniper Systems	\$900 (Half-Day - \$500)	\$1,500 (Half-Day - \$500)
Centralized Group Location	Call for details	Call for details

Note: Prices are for USA and Canada only. These prices can be negotiable based on quantity and package deals. For custom programs, please call for a quote.

Training and Installation Agenda

Generally, the on-site training will take place between 8 a.m. and 5 p.m. local time with a one-hour lunch break. This time is tentative and changes can be arranged beforehand, if needed. The training topics are flexible depending upon the customer's needs, but must be agreed upon before the training session begins.

Example Training Agenda

Day One

8:00 – 8:30	Orientation and background of Juniper Systems and ArcPad
8:30 – 9:30	Define a typical workflow starting with ArcGIS Desktop and checking out data
9:30 – 10:00	Discuss and practice using GPS effectively outdoors
10:00 – 11:00	Practice effective mapping techniques – point data collection
11:00 – 12:00	Check in the collected data with ArcMap and discuss results
12:00 – 1:00	Lunch Break
1:00 – 2:00	Discuss advanced data collection – beyond points
2:00 – 3:30	Capture more data – lines, polygons, graphics
3:00 – 5:00	Edit existing data and define ArcPad best practices

Day Two

8:00 – 10:00	Customize ArcPad – ArcPad Studio, Toolbar Management, Extensions
10:00 – 12:00	Practice in-depth mapping in the field
12:00 – 1:00	Lunch Break
1:00 – 5:00	Advanced Capabilities – Integrating ArcGIS Online, Esri StreetMap, Hardware Integration, etc.; answer questions
