

Re: REACH Substances of Very High Concern (SVHC)

September 28, 2022

Article 33 of EU REACH Regulation (1907/2006) requires communication to customers the presence of SVHCs more than 0.1% by weight of articles (as defined by Court of Justice of the European Union Case C-106/14) contained in products.

We have reviewed Mesa Pro (model: ST1) for the presence of the two hundred and twenty-four (224) SVHC substances on the EU SVHC Candidate List as of 10 June 2022.

No SVHCs were found to be present in Mesa Pro (model: ST1) in excess of 0.1% except as noted below. This determination is based on engineering evaluation, and testing and is correct to the best our knowledge.

Notes –

1. High temperature solder components contain Lead (EC# 231-100-4) > 0.1% w/w
2. Brass components contain Lead (EC# 231-100-4) > 0.1% w/w
3. Aluminium electrolytic capacitors contain Boric acid (EC# 233-139-2, 234-343-4) > 0.1% w/w
