

# Attach the Carry Handle

The Mesa Pro carry handle attaches to the top edge of the tablet with two screws.

To attach the Mesa Pro carry handle,

1. Place the handle on the top edge of the tablet, catching the lip of the handle over the front edge of the tablet.
2. Press the back of the handle firmly against the tablet and align the right screw hole.

3. Position a screw straight into the hole and tighten lightly.

4. Press the back of the handle firmly against the tablet and align the left screw hole.

5. Position a screw straight into the hole and tighten lightly.

6. Completely tighten the right screw. Completely tighten the left screw.

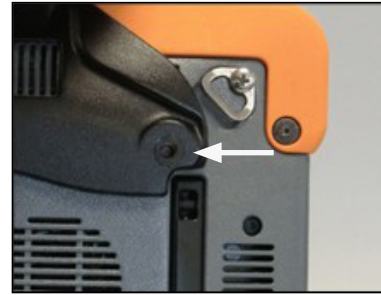

**⚠ CAUTION: The carry handle is designed to fit snugly against the tablet. Do not modify the handle for a looser fit.**
